

Vector Seminar Barcelona 2008

April 1st 2008 in Barcelona

Agenda and Information

Room „Adriatic“

| | |
|----------|---|
| 09:00 am | Welcome Speech |
| 09:15 am | Design and Test of FlexRay FlexRay basics, modelling and realtime simulation, test and diagnostics with CANoe |
| 10:45 am | Coffee Break |
| 11:15 am | Efficient ECU Testing Testing during the development process. Manually operated and automated testing with CANoe, Vector Automotive test system. |
| 12:45 pm | Lunch Break |
| 1:45 pm | AUTOSAR, ECU Software What does AUTOSAR mean? Which role plays Vector within AUTOSAR? Vector AUTOSAR solution - what does it look like? |
| 3:15 pm | Coffee Break |
| 3:45 pm | Calibration of ECUs Measuring, calibrating, bypassing, diagnosing and flashing of CAN, LIN, and FlexRay ECUs with CANape Interfaces, Data Loggers and Measurement Hardware for CAN, LIN, MOST and FlexRay |
| 5:15 pm | Vehicles Diagnostics Introduction in ODX; Why are ODX authoring guidelines needed? Import and export of ODX data with CANdelaStudio |
| 6:45 pm | End of the Vector seminar |

Room „Baltic“

| | |
